Description :

This is a griddle cleaning system for use on griddles that have been cooled down. It's composed of a holder, a tough scouring screen and a polishing / finishing pad.

- Holder 461 : blue plastic handle with metallic plate.
- Griddle screen 200 : open mesh resistant plastic screen with tough abrasive particles.
- Polishing Pad 46 : grey strong synthetic fiber web, containing strong abrasive particles.

Product Advantages :

- Holder 461 :
 - Protect hands from grease and burns
 - Provides high quality cleaning because allows applying high strength.
- Griddle screen 200 :
 - Removes carbonised grease and food debris from the griddle in an efficient way.
 - Fast cleaning action.
 - Resists clogging and cleans easily.
- Polishing Pad 46 :
 - Provides additional cleaning.
 - Polishing will make food stick less so future cleaning will be easier.

Where and When to Use :

Cleaning and polishing ovens and griddles that have cooled down : end-of-day cleaning.

Directions for Use :

1- Place #200 screen on griddle, #46 pad on top, and the holder on top of #46 : #200 screen is in contact with the surface to clean.

2- Apply pressure and run push pull movements.

Note : using 46 between screen and holder will maximize screen life and minimize loading.

Note : #200 screen can be used on both sides.

3- Polishing : use pad #46 alone under 461 holder, after the scouring operation above. (temperature below 100°C)

Maintenance :

Washing 46 pad will prolong life.

Product Characteristics :

- 46 Pad :
