

SYSTEM whiteKliks

green-Effective® Ultra-concentrated laundry bleaching additive

■ Eco-efficient performance with eco-effective product design

User and environmental safety at the highest cleaning performance

- Kliks Laundry is Cradle to Cradle Certified™ GOLD as a set of four products.
- Certified with the European Ecolabel (AT/039/003)
- Complete abandonment of toxic and harmful materials
- Outperforms other products at lower use concentration

Sustainable development and production

EMAS:

- Continuous improvement of environmental performance
- Annual sustainability report
- Energy and water management
- Social Fairness

DIN ISO 14001:

- Continuous improvement in reducing waste and CO2 emissions, and saving of energy, water and material consumption

ISO 50001:

- Continuous improvement of energy management: performance, efficiency, security, use and consumption

A.I.S.E.-Charter:

- Safe and sustainable manufacturing of cleaning products

DIN ISO 9001:

- Continuous improvement of management processes and customer satisfaction
- Established quality management system in product development and production

Complete biodegradability

- SYSTEM whiteKliks with all its ingredients is totally biodegradable and has proven this important property in an accredited mineralization test according to OECD 302 B standard*

Intensive use of renewable resources – continuous increase of the reutilisation score

- Production under extensive use of renewable raw materials and energy using to 100% hydroelectric, solar and geothermic power
- Active water stewardship maintaining an own fresh and waste water treatment

Full transparency - complete ingredient declaration

5-15% oxygen-based bleaching agents, <5% phosphonates
 Specific ingredients: sugar surfactants, natural thickener (xanthan gum)

Traditional German quality - driving your durable business development

- More than 25 years pioneer in sustainable product development
- Smart hygiene solutions ensuring profitable growth
- Trusted brand

Professional user training and on-site support for Sustainable Hygiene Solutions

- Comprehensive knowledge transfer through qualified cleaning consultants
- Customized hygiene plans and cleaning recommendations optimizing your business and cleaning procedures
- Increased service value and strengthened company reputation

SYSTEM whiteKliks

green-Effective® Ultra-concentrated laundry bleaching additive

- Low temperature efficiency ■ Powerful stain remover ■ Energy saving

Product profile

- SYSTEM whiteKliks achieves a strong bright white effect on linen, due to the efficiency of its special low temperature active oxygen ingredients, removing easily all types of bleachable stains like wine, coffee, tea, etc.
- Thanks to a special combination of sugar based surfactants and bleaching agents, SYSTEM whiteKliks achieves a faster contact to soiling for a powerful stain removal.
- Excellent bleaching performance even at 30°C allows selection of low temperature programs to save energy.
- Optimized as system for energy and resource saving. It has to be used through automatic distribution in combination with an ACTIV detergent or further Kliks products such as ACTIV perfectKliks.
- Majorly composed of renewable resources, SYSTEM whiteKliks takes on the responsibility for future generations.
- KLIKS is a closed system with a clever packaging design providing maximum user safety and hygiene while guaranteeing the complete emptying of the product and a space saving disposal.

Application and Dosing

Closed system for maximum user safety and intuitive handling.

Only with automatic dosing system.

developed for professional laundries.

open box as indicated through icons on the box and insert spout correctly in holder.

pay attention to colour coding for safe application.

recycle cardboard box with paper and plastic bag with plastic.

			
3 ml	5 ml	7 ml	

Area of application

- Applicable on every type of bleach resistant textiles and especially for textiles that can only be washed at low temperatures i.e. synthetic fibers.
- Suitable for all types of professional washing machines. Only to be used with automatic dosing equipment.
- Adjust pH of washing solution to 8.5 - 9.5 with SYSTEM powerKliks (+- 4g/kg).
- Use SYSTEM whiteKliks according to the dosage instructions (depending on the water hardness and degree of soil of the laundry). Water hardness information can be provided by your local water company.

Product safety, storage and environmental instructions

Safety: For professional use only. For further information see Safety Data Sheet.

Storage: Store at room temperature in the original container. Keep from freezing.

Environmental: Only give completely emptied packaging to a special waste disposal. Proper dosage saves costs and minimises environmental impacts. Wash at lowest possible temperature. Always wash full load. Pre-sort the laundry (e.g. colour, degree of soil, type of fibre).
